

## 1. 계정 및 유저 관리 (/api/auth, /api/users)

| Method | Endpoint              | 주<br>기<br>능                           | Request (Body)                                | Response                                                  |
|--------|-----------------------|---------------------------------------|-----------------------------------------------|-----------------------------------------------------------|
| POST   | /api/auth/register    | 회<br>원<br>가<br>입                      | nickname, rank,<br>militaryUnit,<br>classType | userId, token                                             |
| POST   | /api/auth/login       | 로<br>그<br>인                           | username,<br>password                         | token                                                     |
| GET    | /api/users/me         | 내<br>프<br>로<br>필/<br>스<br>탯<br>조<br>회 | (Header: Token)                               | nickname, level,<br>currentExp,<br>stats{...},<br>isAdmin |
| POST   | /api/users/buddy/join | 전<br>우<br>조<br>PIN<br>결<br>속          | connectionPin<br>(ex: "3904")                 | success,<br>buddyGroupId                                  |
| PUT    | /api/users/title      | 칭<br>호<br>장<br>착<br>변<br>경            | titleId                                       | success,<br>equippedTitle                                 |

## 2. 퀘스트 시스템 (/api/quests)

| Method | Endpoint                   | 주<br>기<br>능                     | Request<br>(Body/Query) | Response                                    |
|--------|----------------------------|---------------------------------|-------------------------|---------------------------------------------|
| GET    | /api/quests                | 할<br>당<br>퀘<br>스<br>트<br>조<br>회 | ?type=daily             | [[questId, title,<br>status,<br>rewardExp]] |
| POST   | /api/quests/{id}/auth/pin  | PIN<br>교<br>차<br>인<br>증         | buddyPin                | success,<br>earnedExp,<br>increasedStat     |
| POST   | /api/quests/{id}/auth/text | 텍<br>스<br>트<br>보<br>조<br>인<br>증 | summary                 | success,<br>earnedExp                       |
| POST   | /api/quests/{id}/reroll    | 퀘<br>스<br>트<br>새<br>로<br>고<br>침 | (Header:<br>Token)      | 새로운<br>QuestResponse<br>객체                  |

### 3. 전우 통신망 (/api/posts)

| Method | Endpoint                 | 주<br>기<br>능 | Request<br>(Body/Query) | Response                                     |
|--------|--------------------------|-------------|-------------------------|----------------------------------------------|
| GET    | /api/posts               | 피드 목록 조회    | ?page=1&size=20         | [[postId, nickname, content, isAuto, likes]] |
| POST   | /api/posts               | 수동 게시글 작성   | content                 | success, postId                              |
| POST   | /api/posts/{id}/like     | 좋아요 토글      | (Header: Token)         | success, currentLikes                        |
| POST   | /api/posts/{id}/comments | 댓글 작성       | content                 | success, commentId                           |

#### 4. 랭킹 (/api/rankings)

| Method | Endpoint | 주<br>기<br>능 | Request<br>(Body/Query) | Response |
|--------|----------|-------------|-------------------------|----------|
|        |          |             |                         |          |

|      |                             |                      |                 |                                             |
|------|-----------------------------|----------------------|-----------------|---------------------------------------------|
| GET  | /api/rankings               | 소속<br>단위<br>랭킹<br>조회 | ?unit=1 중대      | {rank,<br>nickname,<br>unit, level,<br>exp} |
| POST | /api/rankings/{userId}/poke | 응원<br>하기<br>(찌르기)    | (Header: Token) | success,<br>message                         |

#### 5. 관리자 대시보드 (/api/admin) - isAdmin=true 전용

| Method | Endpoint              | 주<br>기<br>능                          | Request<br>(Body/Query) | Response                                      |
|--------|-----------------------|--------------------------------------|-------------------------|-----------------------------------------------|
| GET    | /api/admin/stats      | 대<br>시<br>보<br>드<br>통<br>계<br>요<br>약 | ?period=weekly          | totalUsers,<br>completionRate,<br>chartData[] |
| GET    | /api/admin/quests/top | 인<br>기<br>완<br>료<br>퀘<br>스<br>트      | ?period=weekly          | {title, count}<br>(Top 3)                     |

|             |                            |                                 |             |                                   |
|-------------|----------------------------|---------------------------------|-------------|-----------------------------------|
| <b>GET</b>  | /api/admin/users/inactive  | 미<br>활<br>동<br>유<br>저<br>목<br>록 | ?days=3     | {userId,<br>nickname,<br>reason}} |
| <b>POST</b> | /api/admin/users/{id}/warn | 경<br>고<br>알<br>림<br>발<br>송      | messageType |                                   |
